

# RWW RESTORATION LLC

*Your Fiberglass Testing and Refinishing Specialist*

**RWW Restoration** specializes in refinishing fiberglass utility tools such as hotsticks, ladders, platforms, and pole mount hot arms. With over 45 years of experience in restoring fiberglass, our professionals makes sure your tool meets industry safety standards.

## We Offer:

- Restoration of any utility fiberglass tool
- Replacement parts
- Fiberglass safety testing and certification
- Custom paint colors
- Custom tool stamping
- Bulk order shipping discounts

## Why Choose Us?

1. We can save your company money.
2. RWW Restoration understands that fiberglass tools are an investment for your company and it is our mission to protect that investment while improving your bottom line.
3. Refinish and certify your existing fiberglass tools for about half the cost of purchasing a new fiberglass tool!

Join our growing number of companies improving on their bottom line using RWW Restoration. Contact us for a list of referrals.

## Our Process:

Each fiberglass tool is disassembled, cleaned, inspected, tested, sanded, repaired, prepped and refinished with two coats of color and one coat of clear before it is retested and reassembled. The tool is affixed with a certified OSHA #1910.269 label before being shipped back to you in our specially-designed boxes that can be reused for your next restoration project.

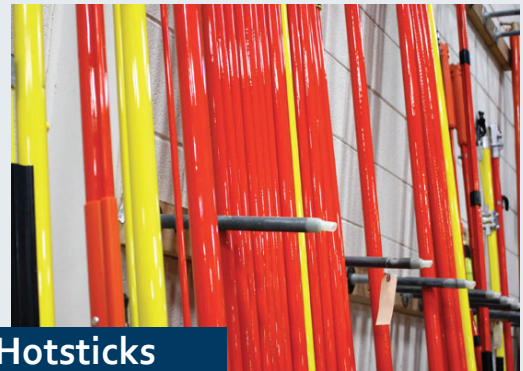

TOOL # 1234 TRUCK # 1234

## Custom Tool Stamping:

Protect your assets by adding your company name or other identifying marks.

Let RWW Restoration quote your fiberglass refinishing project to extend the life of your investment.
